*"Information shared was thorough and based on personal knowledge and experience."*

- Ray Jablonski, EVP Supply Chain

*"Class was very informative. Enjoyed the situations that were thrown at us. Very realistic, made me think of real life situations."*

- Claribel Cana-Aviles, Machine Operator

Edward F. Vasil is an Environmental, Health and Safety instructor for Illinois BIS. He has over 30 years' experience working in the Safety, Medical, and Emergency Response fields. He has experience as a Chemical Hazardous Materials Manager (CHMM), Certified Fire Officer, Certified Hazardous Materials Technician, and Licensed Paramedic. He has vast experience helping companies comply with OSHA Standards.

Mr. Vasil currently is responsible for all local, State, and Federal compliance concerns for a local Community College with 34,000 students. In that role, he conducts accident investigations and reports on all injuries, works closely with insurance companies and insurance audits, conducts and supervises all fire drills, tornado and evacuation drills, tracks and disposes all hazardous waste and completes all EPA waste reports, works closely with the Campus Police Department on security issues, chairs the Environmental, Health and Safety Committee, assists College Department Heads with safety issues and safety training and is responsible for initiation of the National Incident Management System (NIMS) on Campus.

#### EDUCATION and CERTIFICATION

Ed holds a Bachelor's Degree in Fire Science Management from Southern Illinois University.
